Product Code: 2OC

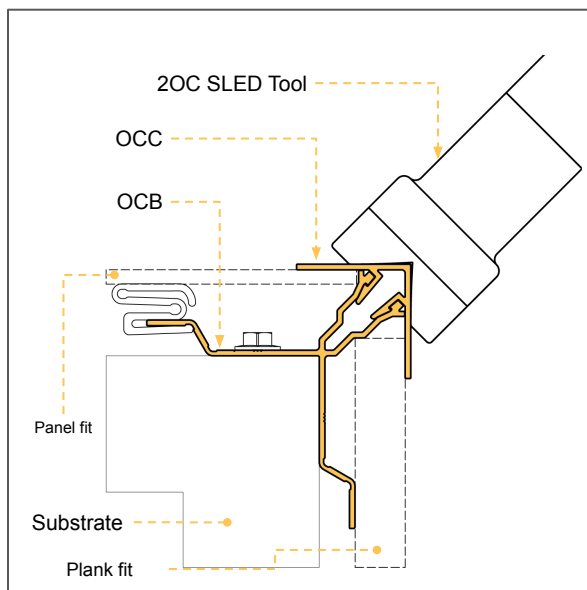

Weight: OCB: 0.485lb/ft (0.722kg/m)
OCC: 0.285lb/ft (0.381kg/m)

Material: A16063-T5

AL13 How-To

Description:

The **2-Piece Outside Corner (2OC)** provides a method to terminate a wall assembly in situations where using the standard Outside Corner would make terminating the wall difficult. The 2OC works with both the AL13 Panel System® and AL13 Plank System® and comprises two components: **OCB** (back plate) and the **OCC** (cap).

Make sure the wall is as square as possible when installing the **OCB**. Installing the **OCC** with the **2OC SLED Tool** and striking at a 45° angle (i.e., with a hammer) as illustrated below is highly recommended.
