

Innovative facades in wood look or solid colors. Intricate designs, simple installations.

About Cladding

Aluminum cladding is durable, low-maintenance, and weather-resistant, making it ideal for commercial buildings. It offers modern aesthetics and ensures ong-lasting performance.

Features & Benefits

Modern Design: Enhances architectural appeal.

Durability: Withstands harsh weather.

Easy Installation: Quick and simple setup.

Low Maintenance: Minimal upkeep needed.

Custom Finish: Variety of finishes and colors.

Open joint batten system is cut to size, easily assembled on site, and secured directly to the substrate for both interior and exterior applications.

Where Does it go?

Walls

Soffits

Ceilings

Screens

Easy installation for walls, soffits, and ceilings to privacy screens, partitions, sunshades, and more - maximum impact with minimal maintenance.
